The papers conference, to be held May 1–4, 1988 at Stouffer’s Hamilton Hotel in Chicago, will provide an historical perspective of TAGA and the Graphic Arts Industry during the last 40 years. This aspect of the program will be presented by Michael Bruno and other leaders of the industry.

Papers have begun to be received by Papers Chairman Fred Dankert of Flint Ink Corp. Several new developments of colorimetry will be presented. Studies in dot gain and hue error will be given. Digital Gray Component Replacement will be demonstrated. A new method of ink drying is an exciting invention to be revealed. An analysis of ink starvation ghosting will be shown. Two scientists from the People’s Republic of China will discuss their work in Fuzzy Mathematics as applied to the Printing Industry.

The Papers Committee is actively looking for papers about Ink/Water Interactions, Printing Machinery Vibrations, Direct Digital Color Proofing, Electronic Beam Engraving, Electro-photography, Screenless Random Dot Generation, Waterless Lithography, Paper made from non-cellulosic fibers, and many more.

In all, TAGA will select about 30 papers. At the present rate the program will be filled earlier than usual, so if you wish to give a paper please contact TAGA as soon as possible. Send all correspondence to the TAGA Office, One Lomb Memorial Drive, P.O. Box 9887, Rochester, New York 14623, or call (716) 272-0557.

Many Enjoyed “Hot Stuff” at Graph Expo ’87

On November 18, 1987, at the McCormick Center Inn in Chicago, during Graph Expo, the Technical Association of the Graphic Arts held a continental breakfast entitled Hot Stuff. The meeting attracted quite a few members and non-members alike. Total ticket sales numbered 106. The speaker was to be the inventor, or person involved with the development, of one of the new technologies being shown at Graph Expo ’87. For this year, Papers Chairman
NEW TAGA OFFICERS

Meet The Board

New TAGA officers for 1987–88 are: 
President Ian M. Muir of Hallmark Cards Canada; First Vice President Frederick T. Dankert of Flint Ink Corp.; Second Vice President David Q. McDowell of Eastman Kodak Company; and Secretary-Treasurer Herbert E. Phillips of Rochester Institute of Technology who were all profiled in the Summer Issue of the TAGA Newsletter. On June 1, 1987, three new TAGA Board Members were also installed for 1987–88. They are: George J. Collins of the United States Government Printing Office; Richard Fisch of 3M Company; and Donald Fredrickson, an independent industry consultant and graphic arts contract engineer. They join existing directors: Dr. S. Thomas Dunn of Dunn Technology, Inc.; Donald R. Voas of James River Corp.; Thomas A. Fadner of Rockwell Graphic Systems; Leslie A. Watkins of Graphic Fine Color; Charles E. Rinehart of Eastman Kodak Co.; Robert M. Montgomery of Harris Graphics Corp.; and Raymond J. Prince of the Graphic Arts Technical Foundation (GATF).

BOARD PROFILES

George J. Collins has been a Chemist at the U.S. Government Printing Office since 1963. He has been Manager of the Quality Control and Technical Department since 1982 after earlier positions as Deputy Manager, Acting Manager, Acting Technical Director, Physical Science Administrator, and Supervisory Chemist, Chief of the Ink and Reprography Division. Prior to entering the GPO, he was employed at NCR for ten years as a Senior Research Chemist in charge of its Polymer Group. George contributed to the early development of plastic printing rollers, automated processing of bank checks, and mail handling based on tagged inks. He chaired the Interagency Task Group that produced the FIPS standard for OCR Form Design, the most popular standard FIPS ever published. He initiated GPO's environmental testing and control program and the Quality Control organization that developed and promulgated the highly acclaimed QATAP program for the government procurement of printing. He currently serves on the Joint Committee on Printing Paper Specification Committee and GATF's Research Advisory Committee. His professional affiliations include TAGA, Past President of the Washington Litho Club, Co-chairman of the NALC Standard Committee, TAPPI, chair of various task group activities, and ACS. George holds a B.A. degree from Wittenberg College ('51) and a litany of non-degree studies since including PIA Executive Development Program and its Award of Excellence in 1974.

Richard Fisch is the coordinator of the Color and Tone Reproduction Center of the 3M Company, Graphic Preparation Systems Division and a Division Scientist in the 3M laboratory in St. Paul, MN. His various positions at 3M over the past 26 years have included Quality Control, Superior, Supervisor of Color Physics, and Manager in the Material Resources and Recovery area. During the past five years, Dick has worked on projects including color standardization, dot image analysis and electronic imaging. He is the author of over 28 United States patents on film processing, contact and proofing materials. He is the author of numerous papers on the graphic arts and teaches a seminar at RIT on microlines and standards with Franz Sigg. Dick is a member of the TAGA Color Committee and represents TAGA in the Inter Society Color Council, and is a past Director and a senior member of SPSE, as well as founder and past president of the SPSE Twin Cities chapter. He is active in the GCA committees on Ink Standards and Grey Component Replacement. His family background includes printing and photography. He is the nephew of Dr. R. Leslie, a former owner of the Composing Room, leader in Graphic Arts education (The lecture series...
The Heritage of the Graphic Arts), President of the Typophiles, and recipient of the RIT Goudy Award.

Donald Fredrickson, Industry Consultant and Contract Graphic Arts Engineer, until recently held the position of Director of Research and Engineering for the Lehigh Press of Pennsauken, NJ since 1980, covering all technical advancements for the company in Graphic Arts. Previous to this, he was Director of Equipment Development at Moore Business Forms' Grand Island facility, culminating six years in press and process development. He has also managed development engineering activity at Bell and Howell Research and, from 1955 to 1965, did basic development work in the Graphic and Printing Arts for Marathon Paper and American Can Co. at Neenah, Wisconsin, encompassing all the major processes. He graduated from Lawrence University in 1948 with a B.S. degree in Mathematics and went on to receive a degree from Marquette University in Engineering. His professional associations include membership in TAGA, SPSE, GAA, and the R&E Council of the Graphic Arts.

TAGA Officer Transition Plan

In order to accomplish the transition from the officers established by the old Bylaws and Constitution to those required by the new, the following election cycle was proposed for the next three years by Second Vice President David McDowell and approved by the Board of Directors at their September meeting.

CANDIDATES

Election of Officers and Directors 1987–1988

The following have nominated and have consented to stand as candidates for Officers and Directors in the 1988–89 TAGA Board Election:

President:
Frederick T. Dankert
Principal Research Scientist with Flint Ink Corp.

Executive Vice President:
David Q. McDowell
Technical staff member of the Graphic Imaging Systems Division of Eastman Kodak Company

Derek Swarbrick
A District Manager at E. I. duPont de Nemours & Co., Inc.

Leslie Watkins
Assistant to the Vice President of
Research and Development at Graphic Fine Color

Dr. Harvey R. Levenson
Head of the Graphic Communications Department at California Polytechnic State University

Secretary-Treasurer:
Herbert Phillips
T&E Center Director, College of
Graphic Arts and Photography at
Rochester Institute of Technology

Papers Vice President:
Donald Voas
Technical Staff Member of the
Research and Development Center at
James River Corp.

Richard Fisch
Coordinator of the Color and Tone
Reproduction Center at 3M Company

Membership Vice President:
Raymond J. Prince
Technical Consultant with Graphic Arts Technical Foundation

Charles Rinchart
Color Reproduction Specialist at
Eastman Kodak Company

Board of Directors
(4 Positions):
Simo Karttuenen
Director of the Graphic Arts Research Laboratory of the Technical Research Centre of Finland

Patrice Mangin
Associate Scientist at The Pulp & Paper Research Institute of Canada

Susan Richards
Electronic Systems Manager at Gannett Offset

Nancy Lowther
Manager of Graphic Arts Technical Development at Hallmark Cards Canada

Alice Mentzer
Watchprint Representative of the Graphics Preparation Systems Division at 3M Company (Atlanta)

John Favat
Publishing Director of Maclean-Hunter Publishing Co. (American Printer)

James Barre
Product Development Manager at OptiCopy

Patrice Dunn
Vice President of Communications, Dunn Technology, Inc.

This year’s Nominating Committee consists of:

Michael Braney
DuPont

Stephen Ogilvie
Howson-Algraphy

Murray Running
Herzig Somerville

Charles McCafferty
Sears Somerville

Committee Chairman
S. Thomas Dunn
Dunn Technology, Inc.

Remember: According to the new TAGA Constitution and Bylaws, other candidates may be nominated by you the membership by submitting their name(s) by petition(s) each signed by twenty (20) voting members to the TAGA Board of Directors. Election ballots will be mailed to all voting members in mid-February. Biographical sketches of each candidate will be included in the election mailing, so that you may familiarize yourself with each nominee. Be sure you vote for the candidates of your choice.

HOT STUFF continued

Fred Dankert, and Executive Director, Michael Bruno, chose Mr. William Neuberg of Shamrock Chemicals, along with his associate, Mr. Paul Evan, to discuss powder drying of web offset printing. Mr. Neuberg’s discussion was received with quite a few questions and he promises to have a paper ready for the 1988 TAGA Meeting.

The second speaker was Mr. Buck Crowley, Vice President of Lincoln Technology, Inc., who discussed a few of the technical aspects involving color vision systems. This presentation, like the first, was greeted with quite a few questions, and a discussion of both topics took place after the breakfast. Last on the agenda, our Executive Director, Michael Bruno, was asked for a short impression of Graph Expo. Mike pointed out quite a number of the items that impressed him, as well as one or two items that he felt should have been shown at the show that should be considered new technology.

Members and non-members alike were encouraged to stay after the program for additional discussions prior to the opening of the show. I think all would agree the “Hot Stuff” program was a success. Special thanks to our three corporate sponsors for this activity—Eastman Kodak, X-Rite, and Scitex America. Also, special thanks to our good friend, Otto Glatt, of Paper Sources, International, for providing the Ikonolux stock, and to Mr. Bill Stevenson, of Stevenson Photo Color, for the separations, Scitex time, and printing of the “Hot Stuff” brochure.
COMMITTEE NEWS

Color Committee

Color Committee Chairman George W. Leyda of 3M Company announces the recent appointment by the TAGA Board of Directors of Thomas Croteau of the staff of USA Today as the new Co-chairman of the TAGA Color Committee. Together Co-chairmen Leyda and Croteau have begun planning a very exciting agenda for the next TAGA Color Workshop to be held at TAGA'88 Chicago. Don't miss this event at TAGA's 40th anniversary meeting!

Ink, Paper & Press Workshop

Ink, Paper, & Press Committee Chairman Les Watkins of Graphic Fine Color in Hyattsville, MD, has announced that the workshop for TAGA'88 will follow the same successful format as this year's meeting. The workshop will promote audience participation and interaction through the use of the "Donahue format" where the moderator will mill through the audience allowing participants to air their topic-related questions, opinions, and comments. Watkins once again promises an extremely interesting meeting and expects a large turnout at the TAGA'88 workshop due in part to the fact that it will not be run concurrently with other events. If you are planning to attend and have an idea for a workshop discussion topic, please contact Les Watkins at (301) 322-7575 or drop him a line at Graphic Fine Color, 4950 Frolich Lane, Hyattsville, MD 20781.

Electronic Pre-Press Committee

Electronic Prepress Committee Chairman Brian Chapman of Eikonix Corp. is in the process of planning another successful Electronic Prepress Workshop for TAGA'88 Chicago. The workshop will follow the same format as the workshop held at TAGA'87 San Diego. If you have any ideas for timely topics for discussion at this workshop, please contact Brian Chapman, Eikonix Corp., 23 Crosby Dr., Bedford, MA 01730 or call him at (617) 275-5070.

International Relationships Committee

This past May, an international technical symposium sponsored by TAGA Italia was held in Milan, Italy in conjunction with the GEC Show. A panel on electronic prepress was one of two presented at the symposium. The other panel dealt with issues in print quality.

Electronic prepress panel members included:

Dr. S. Thomas Dunn, Immediate past president TAGA
Efi Arazi, President, Scitex
Jim Salmon, Managing Director, Crosfield Electronics
Patrice M. Dunn, Managing Editor, The Dunn Report on Electronic Publishing & Prepress Systems
Pietro Chasseur, Instituto Grafico San Zeno
Emilio Gerboni, President, TAGA Italia
Richard Holub, Eikonix, A Kodak Co.
STUDENT CHAPTERS

Call For Student Papers

The TAGA Board of Directors has approved an award of $1,000 to the author of one paper selected from those submitted as part of TAGA Student Chapter Journals. The $1,000 is intended to cover the cost of attending the upcoming TAGA Conference in Chicago, Illinois on May 1-4, 1988, at which time the author shall present the paper to the conference attendees. The paper will also be published as part of the 1988 TAGA Proceedings.

Guidelines and Criteria for Selection

1. The author must be an undergraduate* TAGA student member and a member of a TAGA Student Chapter.

2. Chapters may submit up to five (5) typewritten manuscripts for evaluation. However, a winning paper must become part of a collection of papers in the form of a TAGA Student Chapter journal which is published in time for, and available at, the TAGA Conference in Chicago. (Papers that do not become part of a journal collection will not qualify for the award.)

3. The winning paper must be presented by its author at the TAGA Conference in Chicago.

4. Papers submitted must represent research that took place during 1987.

5. The deadline for submission of manuscripts is January 18, 1988. Submit manuscripts to:
   Technical Association of the Graphic Arts
   One Lomb Memorial Dr.
   P.O. Box 9887
   Rochester, NY 14623
   Attn: Karen Lawrence

6. The author of the winning paper will be notified by February 15, 1988.

7. The cash award will be made at the TAGA Conference in Chicago.

*Chapters are encouraged to publish papers submitted by graduate students. However, graduate student research is similar to professorial research presented as part of the TAGA Conference and should be submitted as such.

Fellowships Committee

According to Fellowships Committee Chairman Gary Field of California Polytechnic State University, interviewing of candidates for TAGA Fellowships for 1988-89 is underway.

Each year up to three fellowships of $3000 each are awarded to worthy candidates at the discretion of the Fellowship Committee, which this year consists of Chairman Field, Donald Voas of James River Corp., and Thomas Fadner of Rockwell Graphic Systems.

For more information about the fellowships or to make application, contact the:
National Scholarship Trust Fund
Mr. Jack Simich
4615 Forbes Ave.
Pittsburgh, PA 15213.
TAGA Board Holds Line on ’88 Dues

Good News! The TAGA Board of Directors decided at their most recent meeting of September 3, 1987, that dues for 1988 will remain at $45 for Individual memberships, $10 for Student and Senior memberships, and $300 and $600 for Corporate Memberships. TAGA membership is still a bargain especially considering all the benefits members receive for their “dues dollar”: Annual Conference Proceedings and Index to TAGA Proceedings, and The TAGA Newsletter. Dues invoices for 1988 membership renewal will be mailed during the second week of December 1987. If you have recently changed your address, please contact the TAGA Office at (716) 272-0557 immediately to insure that you will continue to receive your membership mailings in a timely manner.

AWARD GIVEN

1987 EPPA Presented to Mike Bruno

(Orlando, Florida) . . . The 1987 Electronic Prepress Pioneer Award (EPPA) was awarded to Michael H. Bruno, industry consultant and executive director of TAGA, during a presentation held in conjunction with the Ninth Annual Lasers in Graphics/Electronic Publishing in the 80’s Conference (held September 27 to October 1, 1987, at the Buena Vista Palace in Orlando, Florida).

In selecting Bruno to receive this year’s EPPA the review committee cited Bruno’s tireless contributions to the industry at large. “During his professional career within graphic arts, which spans five decades, Mike has given unselfishly of his time and talent,” commented Dr. S. Thomas Dunn, LIG ’87 Conference Chairman, “the recognition provided by the EPPA is intended to acknowledge both his technical expertise as well as the assistance that he has provided to countless individuals and organizations.”

The EPPA honors individuals who have made significant contributions to the continued evolution of the electronic prepress, printing, and publishing industries. Past recipients of the award include Dr. Jurgen Klie, Dr. Ing. Rudolph, Hell GmbH; Joe Ward, 3M; Kennard Cloud, Scitex America; S. Fujisaki, Dainippon Screen Manufacturing Co., Ltd.; Mike Schwartz, Eikonix; and George Battrick, Crosfield Electronics, Ltd.; for the contributions their respective companies made towards the development of digital data exchange specifications (DDES) for the graphic arts industry.

A Tip of The Hat

We wish to acknowledge the contribution of time and effort by a number of people to improve the visual image of TAGA in its printed products. Mr. David Bethleny, President of Atomic Press in Seattle, Washington, was good enough to offer to provide the membership brochure, assisted by the help of Michael Osborn Design, Inc. in San Francisco for design, Wescan Color Corporation for color separations, Golden Pacific Embossing for letterpress scoring, and Bayless Bindery for folding and stitching. The entire membership brochure was produced at no cost to TAGA, and we thank all of the above people for their excellent contribution, which has definitely impacted our organization in a positive way.

We were again most fortunate in obtaining a donation of Ikonolux 90-lb. coated paper for the “Hot Stuff” brochure through Mr. Otto Glatt, a new member of TAGA, who works for Paper Sources International. For color separation, Scitex work, and printing we thank Mr. Bill Stevenson of Stevenson Photo Color in Cincinnati, Ohio, and all of his fine employees for the excellent job on the “Hot Stuff” brochure.

Both of the above items reflect a new image for our organization. These donations are greatly appreciated!
